

Some of the possible sequences for the evolution of a mid-sized star from formation to final end product

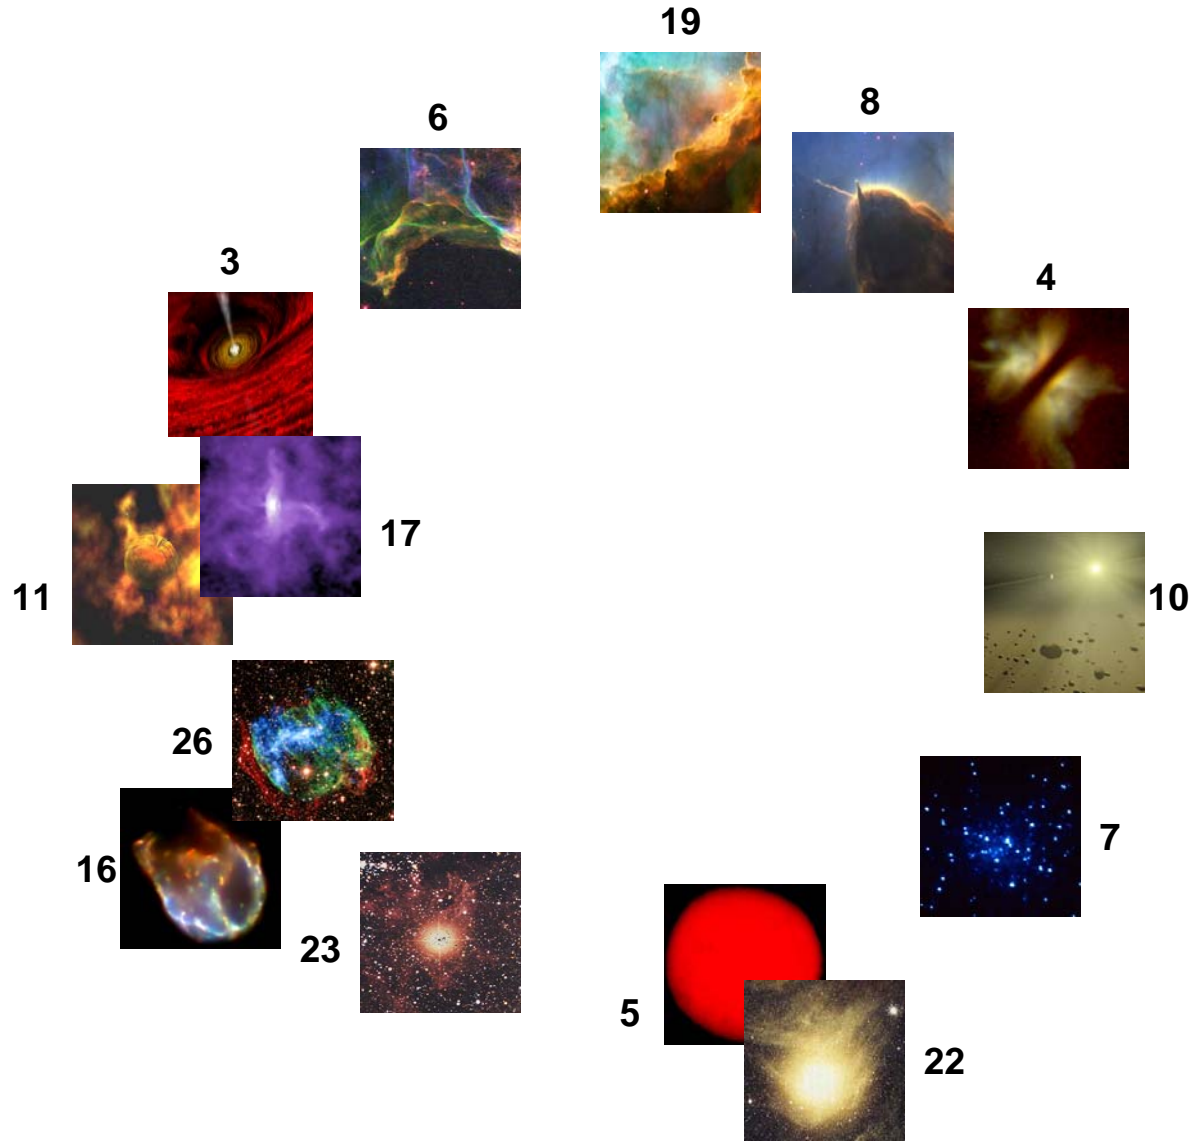

Some of the possible sequences for the evolution of a mid-sized star from formation to final end product

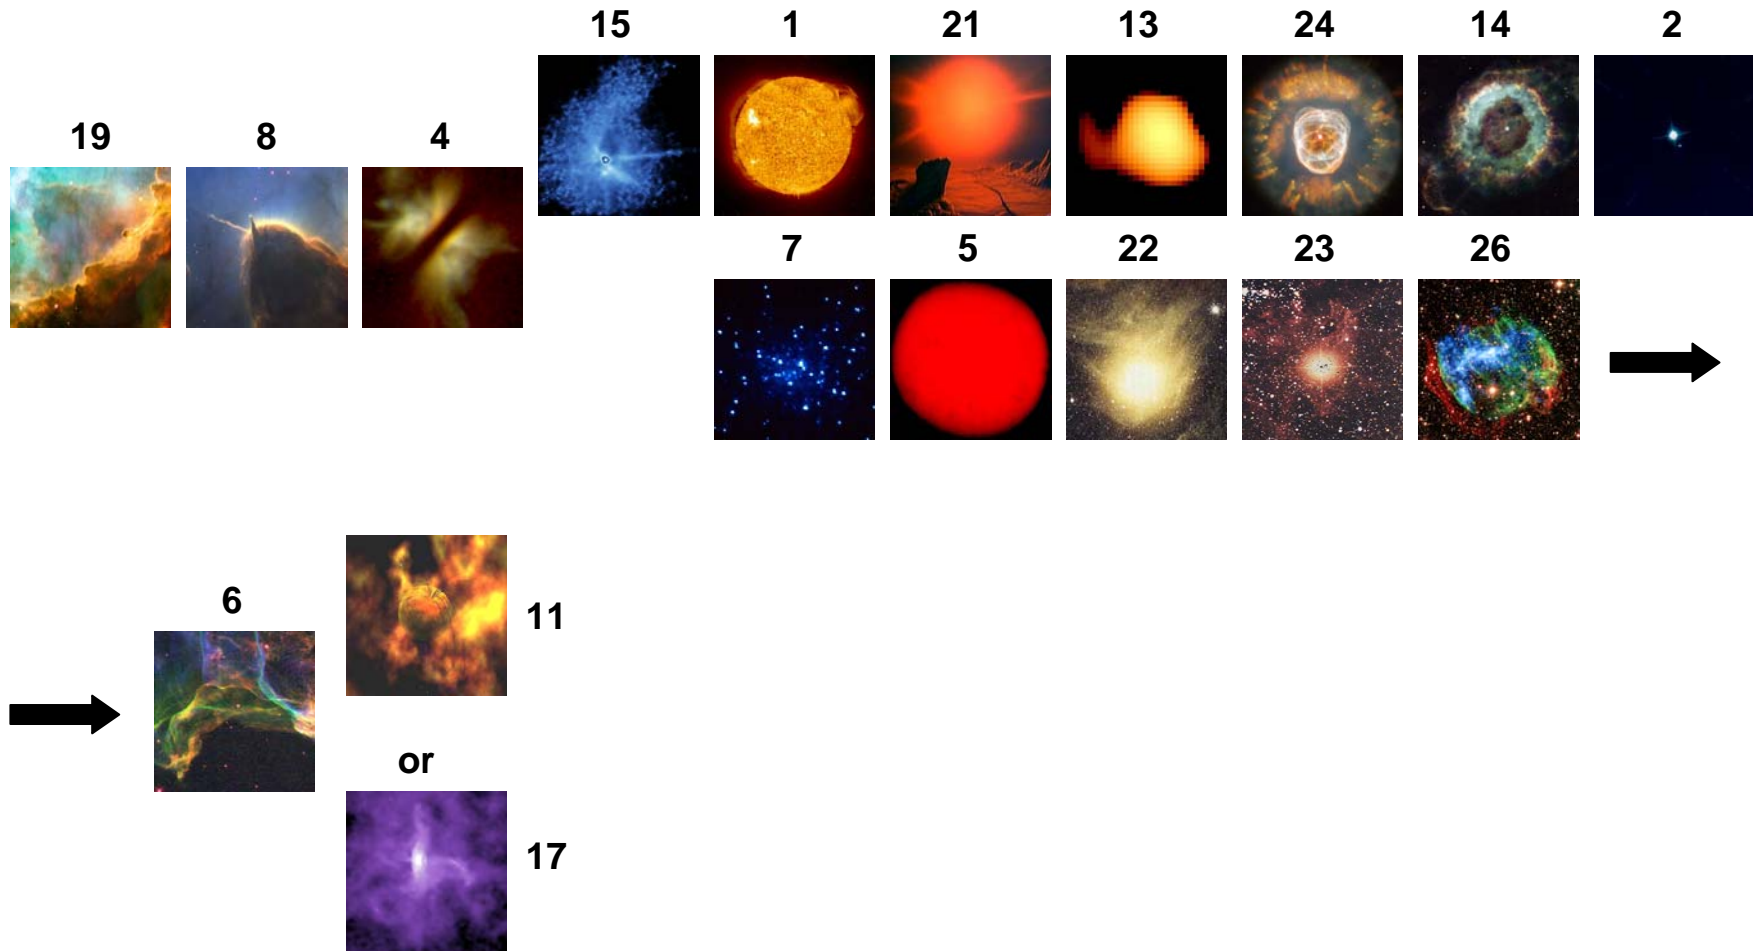

Some of the possible sequences for the evolution of a massive star from formation to final end products

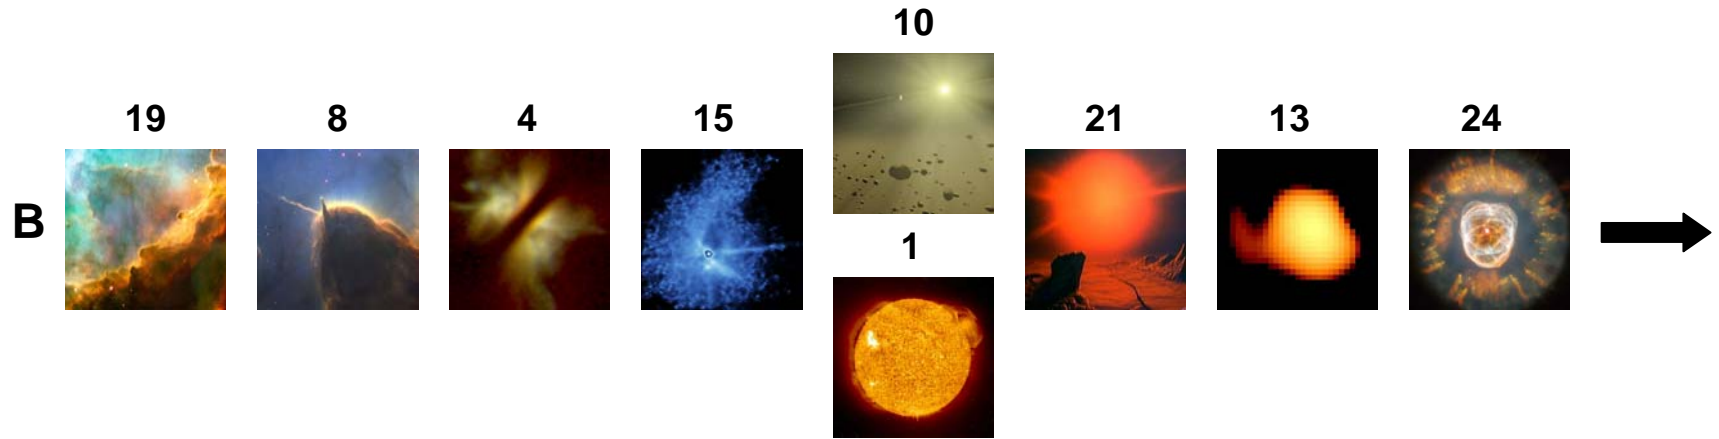

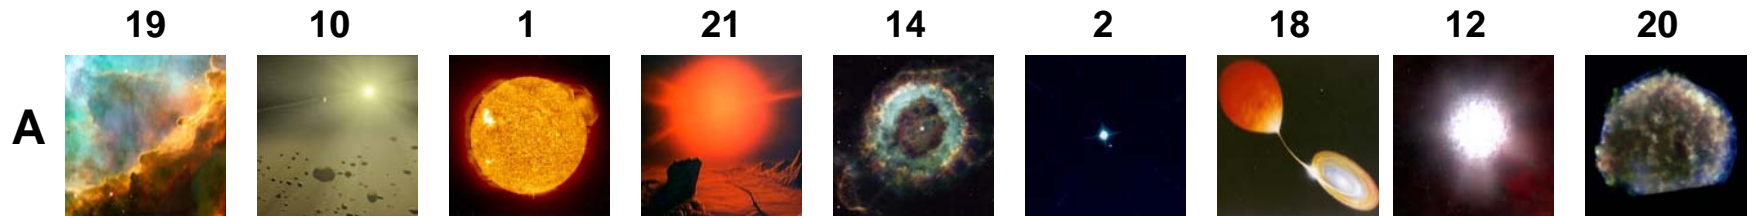

Some of the possible sequences for the evolution of massive stars from formation to final end products

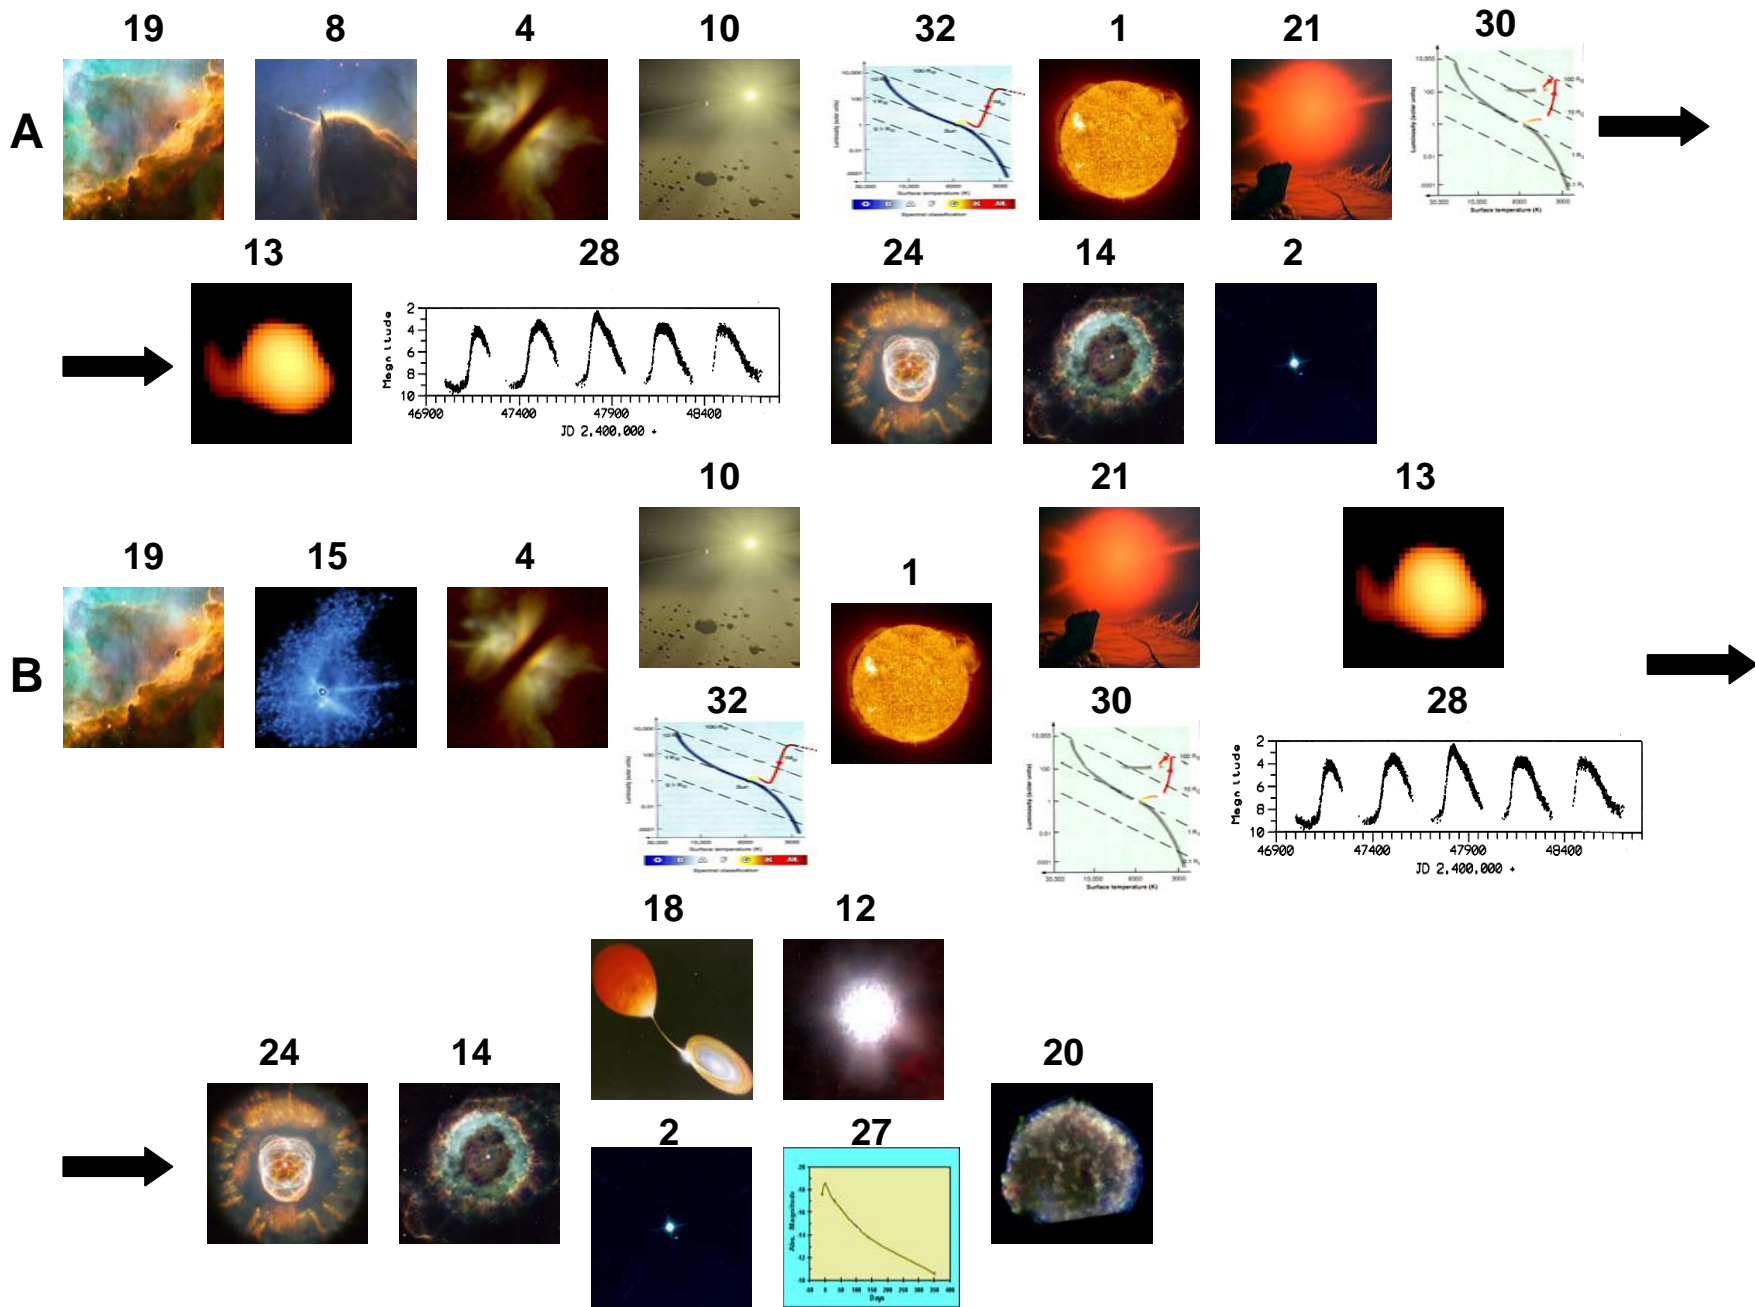

The evolution of a massive star and a mid-sized star from formation to final end products from different fragments within the same stellar nursery

Some of the possible sequences for the evolution of a mid-sized star to a Type Ia supernova event

Possible sequences for the evolution of a mid-sized star from formation to final end products with H-R diagrams and light curves

Possible sequences for the evolution of a massive star from formation to final end products with H-R diagrams and light curves
